

**RISE and let your light SHINE –  
You are the HOPE of many desperate people and peoples**

I have seen expressions of tremendous support for the PPC and myself while campaigning in Beauséjour. So many wonderful folks, from every community have passionately thanked me for running, and have assured me that they are voting or have already voted for the PPC. I am becoming confident that we **could win**.

That is not good enough though. We **must win!** Desperate mothers, nurses, teachers, bus drivers, fire fighters, government employees. etc etc are pinning their hopes on us. They are losing their jobs and much more because they will not be part of deadly vaccine mandates.

They vote for us with tears in their eyes and fervent prayers in their hearts. And not only they but also the citizens of Europe, and Australia and New Zealand, look to us, to Canada, as their last hope for freedom. The PPC is now the slender thread of **hope** in the world. This thread **must hold** and you, the voters of Shediac, Sackville, Richibucto, Dieppe, Cocagne, Bouctouche, Memramcook, and all of the other wonderful communities of Beauséjour, are the fibres of this slender thread.

My dear friends of Beauséjour, we must not, cannot fail. Please rise up, hold the line **and VOTE**.

Please **VOTE** for the **PPC**, **VOTE for Jack**,

because you and people like you can change the world for the better  
by **restoring the true north strong and free!**
